OF UNKNOWN MAN**

Struck with a Butcher's
Cleaver by Keeper of
a Low Dive

IN TENDERLOIN

Murderer Tries to Burn Vic-
tim's Body in a Fur-
nace.

IS CAUGHT BY POLICE

(Special By Scripps-McLae.)
New York, Sept. 27.—The Tender-
loin district, recently the scene of the
murder of Mrs. Pulitzer, had another
amazing crime this morning, when a
man whose identity is not establish-
ed, was killed with a butcher's cleaver
by Thomas Tobin, manager of the Em-
pire Hotel, a notorious report.

Tried To Burn The Body
After he had killed the man, Tobin
cut the victim's head off and tried to
dispose of the body by burning it in
the furnace in the cellar. Police
caught him hiding in the cellar. The
head was discovered in the furnace.
It had been burning some time and
was scorched beyond recognition.
Near the furnace was found the rest
of the body, entirely nude.

Bartender's Story
Tobin's bartender told the police
that Tobin and his victim had been
drinking when Tobin suddenly picked
up the cleaver, struck him over the
head and then beheaded him.

**RAILWAY PLANS
A SHIP SYSTEM**

New York, New Haven and Hartford
Railroad to Own Steam-
ships.

New York, Sept. 27.—(Special).—
According to a dispatch from New
Haven President John M. Hall of the
New York, New Haven and Hartford
railroad has acknowledged that the
rumors concerning a steamship service
to be established by that railroad be-
tween Boston and European ports
are based on fact. He says, however,
that plans are not matured sufficient-
ly as yet to make a complete state-
ment advisable.

Only Regular Traffic
He declared that the road had been
handling an export business with
western freight for some time, and
will now merely undertake a regular
traffic arrangement with a steamship
company or companies, contracts
with which have not yet been signed.
No date has been arranged for. The
road will contract for passenger and
freight service with Antwerp, Liver-
pool and Manchester.

**DARING ATTEMPT
MADE BY BURGLARS**

Enter Beloit Clothing Store During
Business Hours and Take
Valuable Goods.

(Special To The Gazette.)
Beloit, Wis., Sept. 27.—A daring at-
tempt at burglary was made here last
evening and nearly proved successful.
Two men effected an entrance to Reiter
& Weir's clothing store through a
rear window, while the proprietors
and full force of clerks were still at
work in the store.

The employees were busy in the
front part of the store and the bur-
glars appropriated several hundred dol-
lars' worth of hats and clothing and
had their booty safe in the back al-
ley when one of the clerks discovered
them without being seen himself. He
summoned the police and the men
were caught in the act of packing up
the goods.

The men who gave their names as
James Martin and Arthur Eaton,
were held to appear October 1st in
\$500 bonds and taken to Janesville by
Officer Schreiber this noon and placed
in jail.

**TOBACCO COMBINES
REACH AGREEMENTS**

British Imperial and American Com-
panies Make Concessions and
Close Trade War.

London, Sept. 27.—Negotiations
which have been secretly proceeding
for some time past in London between
the British Imperial Tobacco company
and the American Tobacco company
have resulted in the arrangement of
peace with honor for both sides.

The British company buys up the
Ogden company and the other Ameri-
can interests in England at a price
which to some extent recoups the
American Tobacco company for the
money it has sunk in the campaign,
in respect of which also the Imperial
makes trading concessions to the
American company in other territories
outside the United Kingdom.

Madison sophomores bunched the

**NEW YORK NOW
WANTS THE COAL**

Prices Have Gone Up, and None Is
To Be Had at Any
Price.

New York, Sept. 27.—(Special).—
There were no joyful tidings in this
town yesterday for the coal buying
and the coal consuming public. Some
of the sales agents for the anthracite
companies said that they had practi-
cally gone out of the business be-
cause they had no coal to sell. Soft
coal was advanced at wholesale yes-
terday, \$7 a ton being asked and given
in some cases, which was \$1 a
ton over the price on Thursday. Ac-
cording to some dealers, a few lots
of domestic anthracite were sold at
retail at \$16 a ton. One well known
dealer said that he had sold small
quantities to regular customers at
\$12 a ton.

Soft Coal Falls
Brooklyn housekeepers who were
persuaded to try soft coal in their
kitchen stoves said that the attempt
was a flat failure. As to the use of
wood as a substitute for coal, one
dealer said:

"I don't think that wood will in-
crease much in price for a month or
more. There is a large surplus of
pine wood this year. The present
demand may increase the price a
little, but the large supply will pre-
vent it from becoming extremely
high unless the coal strike lasts all
winter."

None To Sell
A representative of the sales de-
partment of the Philadelphia and
Reading Coal and Iron company
said today:

"We have no coal to sell and have
none in sight. We are simply doing
nothing and waiting for develop-
ments."

The contractor who supplies coal
for the schools in Manhattan, Rich-
mond and the Bronx said that the
schools would not suffer from lack of
coal.

**SENATOR QUARLES SAYS HE IS
TO TALK ON NATIONAL ISSUES ONLY**

Junior Senator is Authority for the Statement That
He Will Not Discuss State Matters During
His Tour of Wisconsin.

(Special A. D. Dispatch).
Milwaukee, Wis., Sept. 27.—United
States Senator J. V. Quarles has
committed himself and in a manner
has committed Senator Spooner as to
what these two senators will talk
about during their stumping of the
state in the interest of republicanism.
Senator Quarles came out flat-footed
in his statement that he is here to
discuss national issues.

The Statement
"I will tour Wisconsin with a view
of securing the return of a Republican
delegation from the state," said Sen-
ator Quarles last night. "Mr. Bau-
cock has requested me to use my ef-
forts in this direction. There must
be a strong effort made on this line,
for there is really some danger of the
Democrats making forward strides in
some parts and it is my duty to head
this off as far as I am able. National
issues alone will be discussed, and
the idea is that for the purpose of
securing a republican house I should
keep aloof of all state matters."

"The saving of the lower house this
fall is of the utmost importance to
the party and I will direct all my
work toward carrying out the ideas of
the national congressional committee,
unless some minor changes are made,
which will not affect the tour in the
main."

Its Meaning
This statement from Wisconsin's ju-
nior senator shows clearly that he has
come to Wisconsin to take up the na-
tional affairs not the state mix up. He
and Senator Spooner are both billed to
speak many times during the coming
month. While Senator Spooner has

**IS THE KOREAN
EMPEROR DEAD?**

Question Is Raised on the Authenticity
of the Report That Is
Current.

San Francisco, Sept. 27.—(Special).
—The rumored death of the Emperor
of Korea fails to find confirmation.
The suggestion is thrown out that a
break probably has occurred through
the postponement of the celebration
of the emperor's birthday and access-
ion to the throne. Not long ago it
was said that this celebration had
postponed for a year on account of
the prevalence of cholera in Korea. It
is assumed that a loose statement of
these facts has led to the circulation
of the report of the death of the em-
peror.

Washington, D. C., Sept. 27.—(Spec-
ial).—The State Department has re-
ceived a cablegram from United States
Minister Conger, at Peking, stating
that the evacuation of Manchuria has
been begun by the Russians, who al-
ready have returned the railway. It
is stated that the territory up to the
Liao River will be evacuated com-
pletely by Oct. 8, as stipulated in the
agreement.

**THREE CHICAGO
CASES IN COURT**

The United States Supreme Court
Will Have Windy City
Cases Up.

Chicago, Sept. 27.—(Special).—
Three cases raising public questions
in Chicago were filed in the United
States Supreme court today. One of
them involves the validity of a city
ordinance of the municipality of Chi-
cago fixing the price of illuminating
gas at 75 cents, and is brought by
the Peoples Gas Light Co. and the other
two are controversies between W. L.
Etkins of Pennsylvania and the city
of Chicago and the street car com-
panies of the city concerning the du-
ration of the franchises of the company.

**MADISON GETS NEW
INTERURBAN LINE**

Electric Road Between That City and
Oshkosh Part of the System
Which Reaches Janesville.

(Special To The Gazette.)
Madison, Wis., Sept. 27.—The Mad-
ison and Northeastern railroad com-
pany, to run an electric line from this
city to Oshkosh, Fond du Lac, Wau-
pau, Ripon, Berlin, Beaver Dam, Col-
umbus, and other intervening towns,
filed articles of incorporation with the
secretary of state today. The total
length of the proposed line is 130
miles. The incorporators are men living
along the proposed route, but the rail-
road is to be part of the Knox system
now operating the Janesville, Beloit
and Rockford line.

Royal Wood

The funeral of the late Royal Wood
will be held from the home of his son,

church will officiate.

**WHITE HOUSE IS
LOOKED OVER**

Mrs. Roosevelt Inspects the New
Building to Note All the
Changes Made.

Washington, D. C., Sept. 27.—(Spec-
ial).—Mrs. Roosevelt yesterday had
arranged to visit the White House
to inspect the improvements and
get some idea as to how her own sug-
gestions in rebuilding had worked.
The rain prevented the expedition
and she remained in doors all day
with the president. Attorney General
and Mrs. Knox made a lengthy call.
Mrs. Knox remaining to talk over the
coming events of the winter.

Goes To Oyster Bay
After hearing of the progress of
the work at the White House Mrs.
Roosevelt decided to return to Oys-
ter Bay for a few weeks as soon as
the president's condition permits and
will not come to Washington for the
winter until November 4. At that
time the White House will be in a
condition for habitation, all of the
private part of the house in perfect
condition and partly furnished.

While little new plastering has
been done in the upper part of the
White House, there have been tons
of new plaster used in the building,
the damp odors of which permeate
the entire house.

Plans For Children
Ethel, the youngest daughter of
the president and Mrs. Roosevelt and
Archibald, the next to the youngest
child, will come to Washington on
Tuesday accompanied by one of the
maids. Ethel will go at once to the
Episcopal school near Washington
which she attended last winter, and
Archibald will attend the Force public
school where he was placed upon his
arrival here last fall.

Carriage Is Demolished, But the Oc-
cupants Escape Without
Serious Injury.

(Special To The Gazette.)
Beloit, Wis., Sept. 27.—The passen-
ger train which arrives here from Jan-
esville at 12:35, struck a horse and
carriage, belonging to Gus Gates, on
the first crossing east of Beloit Junc-
tion this noon. The horse was killed
and the carriage demolished, but Mr.
Gates, his wife and child, who were
in the carriage were only slight-
ly injured. They reside east of Be-
loft.

His Summer Home.

Burlington, Vt., Sept. 27.—Justice
David J. Brewer of the United States
supreme court was quite badly burned
about the face and hands at his sum-
mer home at Thompson's Point, Lake
Champlain.

"Judge Brewer has remained longer
at the point than have the other cot-
agers and was cleaning up some
brush about his cottage, Liberty Hall.
He used a small amount of gasoline
to make the brush burn and was in
the act of lighting the pile when the
accident occurred. His burns were
promptly attended to and with good
nursing he hopes to be out in a few
days without scars.

ARE DISAPPOINTED

(Special By Scripps-McLae.)
Washington, D. C., Sept. 27.—Sam-
uel Gompers this morning issued an
appeal to organized labor in behalf of
the striking miners, who, he says are
more determined to stand fast than
ever. He urges all unions to raise
funds and to forward them at once.

Mob At Centralia
Shenandoah, Pa., Sept. 27.—Recur-
ring demonstrations at Centralia
against the Lehigh Valley
miners' train forced the company to
abandon the train. All night long
the mob besieged the depot at Cen-
tralia, watching for the return of the
non-union workmen but their vigilance
was without result, owing to the pre-
cautions, taken by the company to
prevent a riot.

Is Now Quiet
Reports received at Shenandoah
this morning indicate that quiet rules
throughout the entire region. The
strikers are determined, however,
and outbursts of violence may be look-
ed for at any time.

**JUDGE RELEASES
SUSPECTED MAN**

He Makes a Neat Point of Law and
Gives the Prisoner His
Freedom.

New York, Sept. 27.—(Special).—
Alfred Pyrot, alias Alfred Pier ar-
rested here at the request of the San
Francisco police, charged with obtain-
ing money under false pretenses, has
been released by the police magistrate
before whom the case was called. A
formal complaint had been made
against the prisoner, appended to
which was a copy of an indictment
warrant telegraphed from San Fran-
cisco, but this was the magistrate's
decision.

Would Not Hold
"We like to be courteous and fa-
vor the officials of other states, but
it is proper that the complainant be
brought here to make out a case. We
cannot afford to hold defendants on
telegrams, as we are likely to be held
personally responsible."

**MUNICIPAL COURT
HAS A NEW CLERK**

Judge Fifield Appoints A. C. Thorpe
To Succeed A. E. Tanberg,
Who Has Resigned.

The removal of the municipal court
to the new city hall has caused a
change in the office of clerk of the
court. A. E. Tanberg, who has been
clerk of the court for the last three
years feared that the removal from
the business center would interfere
with his abstract business and has
therefore resigned as clerk. He will
occupy his old offices in the Carpenter-
Sutherland block after October 1st
and devote himself exclusively to his
abstract business.

Judge Fifield has appointed ex-Coun-
ty Treasurer A. C. Thorpe as clerk
of the court. Mr. Thorpe has had
much experience in keeping public
records and his appointment will give
good satisfaction.

Mr. Thorpe had planned to go to
Washington to attend the G. A. R. en-
campment before this appointment
was made and so he will probably not
commence his new duties until about
the middle of October.

**HOTTEST CORNER
EVER NEGOTIATED**

St. Louis Firm Secures Control of Spot
and Future Pepper and
Prices Go Up.

St. Louis, Mo., Sept. 27.—The Ed-
ward Weston Tea and Coffee company
of St. Louis is in absolute control of
the "spot" supply of pepper, and as
such is able to dictate and regulate
the prices on that commodity. In the
last two months this firm has gained
control by reason of buying at least
one-third of the visible supply of pep-
per and has contracted for most of the
September, October, November and
December shipments.

The company now has in its ship-
ping rooms about 100 tons of the ar-
ticle and between now and December
15 will receive 500 tons, which is now
en route from the Orient to this coun-
try. The price of pepper has steady-
ly advanced and is now two cents in
advance of what it was early in the
summer. As the European supply is
very slack and the large dealers in the
United States are lightly stocked, the
St. Louis firm may be said to have
completely cornered the market.

BOWLING SEASON HAS NOW BEGUN

STARS DEFEAT STANDARDS AT HOCKETT'S ALLEYS.

AVERAGES WERE NOT HIGH

Lack of Practice Was the Excuse Made by the Two Teams Last Night.

The first bowling match of the season was held last evening at Hockett's alleys on North Main street between The Stars and The Standards. The match resulted in a victory for The Stars by a total of 36 pins. The match was five men on a side, three games, the total number of pins to count.

None of the totals of the games were up to the average of a first class team, none of them reaching the 700 mark. All the bowlers showed lack of practice and were not certain where a ball would end. Nolan, Biber, Whitcomb and Gibson were the only ones that bowled anywhere near their usual average.

CHANGE IN TIME ON RAILWAYS

Both the St. Paul and Northwestern Make Out New Schedules Between Here and Chicago.

A new train between Chicago and Janesville will be added to the equipment of the St. Paul road Sunday. The train will be run over the Janesville & Southeastern division and will be a modern train and very convenient for Chicago and Janesville passengers. The train will leave Chicago at 9:05 a. m. and will arrive here at 12:01 p. m. Returning it leaves Janesville at 5:10 p. m. and arrives in Chicago at 8:30 p. m.

Special Rates
The St. Paul road will also make a rate or a fare and one third for the round trip from all points within a radius of fifty miles for the races in this city October 1 and 2.

North-Western Changes
There will be a number of changes in the North-Western time table Sunday, and the arrival and departure time of a number of their passenger trains will be changed. The morning train that now leaves here at 10:10 will leave about 9:30 and the running time will be as fast if not faster between here and Chicago in time for dinner.

The changes on the Northwestern will take effect on Sunday morning at 7 o'clock. The Beloit train will leave at 6:50 a. m. and the 8:45 train will be taken off.

Osteopathy.
By Charles Sommer, D. O., Muncie, Ind.

Case No. 1.—A prominent young man of this city had an attack of sciatica in 1894. He went to Martinsville, Ind., and took mineral baths, and returned apparently cured. One year later he had a second attack. He again went to Martinsville and became so much worse that morphine in large doses did not relieve the intense pain. After three months he returned home and tried the skill of the local physicians. He then went to the Muncie Sanitarium. As a last resort he tried Dr. Fletcher, a famous nerve specialist, of Indianapolis. After the doctor had tried all his remedies without success he advised him to go to Florida, but told the young man's father that he could not be cured and that he would live but a few months. While preparing for the Florida trip he heard of the cures wrought by Osteopathy and at once went to Kirksville, Mo., and was treated at the Still Infirmary. In March, 1897, he returned home greatly benefited after three months' treatment. In July, 1897, he went to Des Moines, Iowa, and took treatment for three months. In April, 1899, he prevailed on me to locate here that he might receive treatment at home. After twelve months' treatment he was entirely cured. This case was the most obstinate that I had ever had, but it demonstrates what patience and perseverance in Osteopathy will do.

Case No. 2.—Last June I was called to treat a lady who was suffering from an acute attack of sciatica, and in three days she was well and able to walk without pain.

DAMP WEATHER HINDERS WORK

Rain Delays the Macadamizing of Milton Avenue Some Days More.

Had it not been for the rain of the past week, the stone work on the Milton avenue contract would have been completed by this time, according to Edward Blake. The foundations have been so damp and so soft that it has been considered best to do but little hauling this week, on one day not taking out a single team. There is only a little work remaining to be done, and with fair weather it will be quickly disposed of.

Carl Helse.
The funeral of Carl Helse was held from the home of Edward Poenichen, yesterday afternoon at 1:30 o'clock and from St. John's church at 2 o'clock. Many friends of the deceased were in attendance to pay the last tokens of respect. Rev. P. F. Werth was the officiating clergyman. The remains were taken to Oak Hill for interment.

WIRES STRUNG FOR 80 MILES

American Telephone and Telegraph Company Complete Line from Here to Milwaukee.

Thursday the force of men employed by the American Telephone and Telegraph company completed their work and this morning left the city. The long distance wires of the company have been strung from Milwaukee to this city and the gang of men have now returned to Milwaukee where they will continue to work on the lines of the same company.

WITH THE ATHLETES

Beloit is playing a practice game today with the Freeport High school.

Michigan has been practicing in an adjoining lot in order to avoid the deep water on the gridiron.

Several times in the past week the Wisconsin scrubs have kept the ball in the varsity territory, but have not yet scored.

Corbett's theatrical engagement expires on March 13, and he is expected to try and arrange for a fight on an early date after that.

"Garry" Cochran, the noted end and captain of the '96 and '97 teams has arrived at Princeton to act as head coach.

Coach Stagg has been severely criticised for his lack of assistants to aid in getting the Maroons into shape.

At the close of this season the National League magnates are more determined than ever to fight the American League to a finish.

During the season just coming to an end the National League has this year been paying salaries to its young players quite as high as were formerly given to its stars.

Out of thirty-three games that the Beloit college base ball team played at Granville, New York this summer, twenty-three were victories, and none was lost by more than two runs.

Manager Tebeau of the Louisville American League team, said that his club cleared \$10,000 on the season, but it is generally believed that \$20,000 would be nearer to the correct figure.

Johnson, star half-back for the University of South Dakota for the past two seasons, and Strothers, the colored end, who made such a phenomenal record with Beloit, have been added to the Northwestern squad.

In an official report, H. W. Collins, president of the British Lawn Tennis association, says that the Yankee singles players are at least equal to the English champions, but that in doubles America is at present below the standard of the United Kingdom.

Fire Chief to Resign.
London, Sept. 27.—The criticism on the inefficiency of the London fire brigade have resulted in the decision on the part of Capt. Wells, chief officer of the brigade, to resign.

BAND LEADER IS GREAT MUSICIAN

THE HAVERLY MASTODON MINSTRELS HAVE AN ARTIST.

A TALENTED CORNET PLAYER

Young Man Who Has a Brilliant Future Before Him, Was Here Wednesday Evening.

In Frances W. Sutherland, Haverly's Minstrels have a band master who bids fair before many years to take his place among the foremost cornetists of the country. He has already won renown by having been chosen from all the trumpeters in the Philippine Islands to sound taps over the body of General Lawton just before it was borne in state from the Islands to this country.

Mr. Sutherland is a young man, barely twenty-five years of age, who eight years ago enlisted as a musician in the army. For sixteen months ending a little over two years ago he was a member of the 4th cavalry, on duty in the Philippines, and was promoted to the position of Chief Trumpeter under General Lawton. When the latter died the honor of blowing taps for the dead general was allotted to him.

When his term of enlistment expired, after six years of active service, Mr. Sutherland returned to San Francisco where he joined Haverly's minstrels with whom he has remained ever since, this being the third season with the organization, and second as leader of the band.

That he cannot much longer be retained by a minstrel organization is generally admitted. His unusual ability was shown Wednesday evening by the sweetness and purity of his tone in the "Suwanee River" interlude of one of the musical numbers. That he should have been able to achieve such results after playing continuously in so heavy an alto, and playing at a hand concert in the afternoon, makes him as a musician of unusual power. His cornet is a magnificent gold "Boston Three Star" instrument which was presented to him by the makers.

LEMONS GROWN IN WISCONSIN

Two Trees Near Sparta Give Good Growth of the Fruit This Season.

McCue & Buss have on exhibition in the window of their drug store, a Wisconsin grown lemon that weighs one pound eight and one half ounces. It was grown by Joseph J. Wolff, a nurseryman at Sparta, Wisconsin. The lemon was brought here by a daughter of Mr. and Mrs. Frederick Roeding, who was visiting Mr. Wolff, who is a relative. The lemons are of a firm quality but not quite as sour as those from the southern countries. Mr. Wolff had two large trees of the fruit.

MISSION WORKERS MEET FOR BUSINESS

Quarterly Session of Executive Committee of State Society Held In This City.

Friday the quarterly meeting of the State Home Missionary Society executive committee was held in the Y. M. C. A. building. The most important business of the session was that of making final arrangements for a report of the year's work at the annual convention to be held in a couple of weeks.

Heard Reports
Every three months the state executive committee meets to have the reports from the various departments of the work, and attend to the routine business of the organization. After disposing of this part of their duties, the committee took up special subjects for discussion, principally tending to those of a larger and more profitable state work in new fields. Untried plans for enlarging the usefulness of the society were suggested and commented upon by the members of the committee.

Who Were Present
Plans for the convention, which will be held at La Crosse October 7 and 8, were also talked over in the meeting. The committee met at ten o'clock and did not adjourn until well along in the afternoon stopping only to take a brief recess for luncheon. The members of the executive committee are H. W. Carter of Beloit, George L. Leavitt of Beloit, S. D. Cottle of Williams Bay, C. M. Blackman of Whitewater, J. O. Myers of Milwaukee, F. J. Lamb of Madison, and H. C. Todd of Prentiss.

COTTON MILLS ARE NOW NO MORE

Final Dissolution of the Company Occurred Last Tuesday, and Papers Were Filed Friday.

The Janesville Cotton Mill company is now a thing of the past, the papers dissolving the company being put on record in the register of deeds' office yesterday afternoon.

Organized 1874.
The company was organized in 1874 and came to an end as far as business was concerned about two years ago.

Final Meeting
The final meeting of the stockholders was held in President W. H. Palmer's office Tuesday afternoon. A large portion of the stock was represented at his meeting and all the owners present voted to ratify the sale of the property. The sale of property will not the stockholders about 45 per cent on their original investment.

Does Her Own Needle-Work
Actresses who can do needlework are so few they may scarcely be counted as deserving a position in that category of artists. Yet there are two or three that are exceptions and among them is Grace Cameron who has any number of odd costumes this season in "A Normandy Wedding" in which she is starring under the management of F. C. Whitney.

This is Miss Cameron's first venture in the stellar ranks and naturally she was enthusiastic when she signed her contract. Her early education was gotten in a convent and she naturally turned to the arts at which she was, proficient to prepare herself for her first great step.

PACKING MERGER IS CLOSE AT HAND SECURE SMALLER CONCERNS

Armour and Swift Control the Anglo-American and Hammond Plants, Thus Putting the Entire Industry in the Hands of the Combine

New York, Sept. 27.—Consolidation of the Chicago packing-houses has not been abandoned; it is simply deferred until the money market becomes easier. Representatives of the three big interests have been in this city arranging for the flotation of a gigantic merger. It was admitted by interests connected with the deal that the merger is liable to take place any time between Nov. 1 and Jan. 1, and will be of date of Oct. 1. That is, the various businesses will be operated in harmony from that date, awaiting the practical consolidation.

City Bank to Underwrite.
This was the result of a series of conferences held with James Stillman, president of the City bank of New York, which is the head of a syndicate that has accepted the underwriting of the merger. The packers were represented at the conferences by J. Ogden Armour, P. A. Valentine and Arthur Meeker of Armour & Co.; E. F. Swift of Chicago and E. C. Swift of Boston, representing Swift & Co., and Edwin Morris, representing Nelson Morris.

These men came to New York expecting to complete the deal. The financial affairs had all been arranged a month or two ago, but the tightness of the money market rendered it impossible to furnish the \$25,000,000 which it is said is required to swing the merger.

Morgan is Mentioned.
There was a disposition on the part of the banking interests to make good the promise, but when the packers were asked to defer the matter they willingly agreed to do so. It was felt that to take the money out of the market at this time would result in a depression of the speculative stocks and jar a number of interests that are well disposed to the packers.

The connection of the City bank with the project indicates a Morgan interest in the combine, for the bank is the leading Morgan institution. Its Chicago connections are the First National bank and the Illinois Trust and Savings bank. President John J. Mitchell of the latter institution came to New York with some of the packers to assist in closing up the combination. He returned when it became evident that postponement was inevitable.

It is denied emphatically that President Roosevelt's anti-trust declarations have influenced the action of the packers.

Capital is Immense.
The total capitalization of the merger is reported at from \$100,000,000 to \$125,000,000, but none of the parties interested will give any definite advance information.

The process of securing the smaller concerns that have been in active competition is completed. The two principal interests thus secured are the Anglo-American and Hammond & Co., Swift taking over the first and Armour the second. The transfer here a week or two ago of \$4,000,000 of Armour money was to pay for Hammond stock held by some of the banks, and indirectly it was a contribution to the money market, as it released that amount of funds tied up by the stock of Hammond & Co. The purchase of the Anglo-American company is to be completed Oct. 1 by Swift & Company.

WOMAN SUES THE GAMBLERS

Wants to Recover \$5,000 Lost by Her Husband in Games.

Muncie, Ind., Sept. 27.—Mrs. J. C. Hassler filed another batch of suits against local owners of gambling houses for the recovery of money alleged to have been lost by her husband. Mrs. Hassler, whose husband is prominent in railway circles, alleges that he has lost thousands of dollars in gambling. She threatened to bring leading business men into the case as witnesses, claiming to have their names. The suits aggregate \$5,000 and are against prominent saloon men.

AN ORDINANCE to require cars operated upon street railways to be furnished and provided with fenders.

The Mayor and Common Council of the city of Janesville do ordain as follows: Section 1. Every person or corporation owning or operating a street railway, within the corporate limits of the city of Janesville, propelled by electricity or other power, shall cause all cars to be furnished and provided with suitable fenders on the front and of such cars, at all times while in operation, and in such a manner as to prevent so far as possible, such cars from running upon or passing over any person or object which might be caught in front of or thrown under the same.

Section 2. In case any person or corporation owning or operating a street railway, within said city, shall fail to comply with the requirements of this ordinance, within thirty days after the date of its passage and publication, said person or corporation shall pay to the city of Janesville the sum of one hundred dollars, and the further sum of one hundred dollars for each week or four hours of such failure, after notice from the mayor or city marshal of said city of such violation, which notice shall be in writing, and a copy thereof delivered in some agent or officer of such person or corporation.

Section 3. This ordinance shall take effect and be in operation from and after its passage and publication, which publication shall be for three successive days.

Passed Sept. 23, 1902.

Approved: VICTOR P. RICHARDSON, Mayor.

A. E. BARNES, City Clerk.

MISS ROSE OWENS,

No. 720 Seventeenth St., WASHINGTON, D. C.

"If every suffering woman had the same experience with Wine of Cardui that I had, your medicine will be most popular. About a year ago I began to have a worn out tired feeling with lassitude, pains in the back and head which kept increasing every month. I felt that I needed something, but to get the right medicine was the trouble. I finally decided on your Wine of Cardui and only needed to take three bottles when I was fully recovered."

Miss Rose Owens.

WHEN Miss Rose Owens, who has a responsible position in the Government service at Washington, D. C., decided to try Wine of Cardui, she made a wise choice. Over a million women have been relieved of female weakness by this same Wine of Cardui. It is not a strong medicine but may be taken every day in the year by any woman with benefit. It does not force results, but corrects derangements of the menstrual organs. It strengthens the nervous system, gives tone to the bodily functions, acts directly on the genital organs, and is the finest tonic for women known to the science of medicine.

If you are a suffering woman we would say to you that Wine of Cardui seldom fails to completely cure any case of female ills. We say emphatically, it never fails to benefit. Every day hundreds of sufferers are writing to our Ladies' Advisory Department. The letters are opened by persons competent to give advice. Mrs. Jones was cured by following the advice which was freely given her by the Ladies' Advisory Department. Miss Owens was cured without advice by just buying a \$1.00 bottle of Wine of Cardui from her druggist and taking this great medicine in the privacy of her home. No doctor's examination, treatment or advice is necessary. You have read what these two cured women have written. Is this not enough to lead you to determine to be rid of suffering?

August 13, 1900, Mrs. W. H. Jones, of Cameron, Mo., writes: "I suffered terribly at monthly periods for three years. I would sometimes go for seven months with no flow at all. Now I have my health back again and am expecting to be confined in January. I cannot praise your medicine enough."

WINE of CARDUI

A million suffering women have found relief in Wine of Cardui.

Best Tailoring.

ALL READY FOR FALL, and not a minute too soon. Those who have had the first glimpse of the new stock of Fall Fabrics were favorably impressed by the quality and the great variety of attractive patterns. It is a showing of which we are pardonably proud. Every fabric in the line is superior in every particular to any that ever sold at the price. And the making that will go into the garments will give Zeigler tailoring a still higher mark in the scale of perfection. Will you call and look today?

IMPULSE AND REASON.

"Sit down in that chair and listen to me John, and don't you attempt to use any argument to change my mind, for I won't be influenced by it. I'm going home next week to my mother. This starting a home isn't what it is supposed to be."

John sat down in the chair and listened. The girl wife before him was a bride two months ago. As he looked up into her face and noticed the crimson blush which excitement painted on the fair cheek the experience was a revelation, and then he remembered that the mother had said to him as she wished him God speed on his wedding day:

"Mary is impulsive and quick-tempered, but don't ever let that annoy you, John. She's a good warm heart that beats in the right place, and when you come to know her as I do, you will love her more than you think you do now."

The message did not impress him at the time, in fact he had not thought of it since, but this first exhibition called it back, and he said to himself, "I guess the mother knew her better than I do."

John was not impulsive, so he didn't attempt to settle the first quarrel with a kiss, neither did he offer any objection to the proposed plan, but simply said, in pleasant voice:

"I am glad you are not going until next week Mary, perhaps you'll decide to postpone the trip indefinitely when we come to talk it over. People sometimes change their minds." And so, with a cherry good bye, he went to his work. When he came back to supper, the clouds had vanished, and the little wife met him at the door with a cheerful "I guess I won't go John, if you'll let me stay," and then with his arm about her, they discussed the little grievance, and in the light of reason the impulsive mountain soon became a mole hill, and the altar fire was rekindled in the new home.

The world contains an army of impulsive people, whose misapprehension of action is so tense, that they are inspired to all sorts of unreasonable effort, and frequently suffer in consequence.

This faculty in human nature, called impulse, is a faculty of the heart and not of the mind. It is influenced by either good or bad intentions, and while possessed of many qualities that are commendable and helpful, it also possesses elements of danger that can not be too closely guarded.

Intention may be right, but the life that is controlled by impulse, however pure the motive, is liable to many errors in attempting to carry out theoretical and impractical ideas.

The nation today is passing through an era of impractical reforms, stimulated and encouraged by enthusiastic leaders who are largely inspired by impulse.

Many of these men are honest, but they are unsafe as leaders, because the mind, the throne of judgment, is sacrificed in an ambition to remedy real or imaginary evils.

Mr. Bryan, impulsive and large hearted, believed that everybody would be happier if money was cheap and more abundant, and his crusade in the field of finance, captivated a host of earnest followers. Judgment and reason were ignored, and the welfare and integrity of the nation threatened by a tidal wave of impulse.

Tom Johnson of Ohio, and the governor of Wisconsin, both belong to this class of leaders, and while honesty and good intentions may not be questioned, the theories they advance are dangerous to the welfare of the commonwealth. Impulse is the controlling element, and it lacks ballast for successful leadership.

Impulse, like every other faculty of the heart, is in evidence from earliest childhood. The baby frequently rules the home through impulsive and persistent demands. The little mind is not able to grasp and hold an idea, but the sob turns to laughter, and a smile chases away the frown, when the family meekly submit

estrian, but he cheerfully walks the floor nights in response to the active demands of the latest member of the family.

The mother may not be a pre-madonna, but when the baby clamors for a song, the lullaby is furnished, and the little rascal drops off to sleep.

He is not long in discovering that he rules the household, and with the discovery he soon becomes a monarch. When he makes his exit into the larger world of boyhood, he takes to the playground the same impulsive spirit, and as the work of education begins, and he comes in contact with playmates and companions, he finds that impulse is met by impulse, and after a few hard knocks, the little mind begins to act, and in the process of gaining and yielding points, the sharp corners disappear. The boy has taken his first lesson in the great school of life. He carries his troubles home with a sob and a threat, and if wisely governed, his throne as dictator crumbles under the influence of reason, and mature judgment.

Men and women who act from impulse, are found in every department of life. They represent a class of people who do but little thinking and whose plans for the future are never very strongly formed.

In the business world their counsel is not in active demand, because they lack stability and staying qualities. When times are hard and business slow, they are ready to sell out at a sacrifice, and try a new venture. When prosperity rules, impulse prompts speculation, and they become easy victims to visionary schemes.

In the channels of industry, impulse is restless and dissatisfied, and the time that should be spent in work and accumulation is wasted in agitation, and many needless labor troubles result.

The church and the religious world has troubles of its own with this same class of disciples, and as the heart is the center of emotion, impulse is frequently very pronounced in church life. Many people go to church when they feel like it. Their zeal is measured by likes and dislikes.

If the pastor is dull, or the music a little off color, no other excuse for neglect is necessary. The church itself, and the importance of its missions, counts for nothing.

The world needs today, an intelligent consecrated mind more than it needs the profession of a consecrated heart, which in many cases amounts to more than a profession. It is long on impulse, but short on reason and judgment, and the rare gift of common sense.

Principle, not impulse, should be the governing power, and the life of the nation, as well as the success of the individual depends largely upon ability to reason, and a disposition to be governed by it.

SUBSTITUTION.

The manufacturers of patent medicines, as well as the manufacturers of food cereals, and some other kinds of goods that have not yet become staple, spend a great deal of money in advertising. They very naturally expect results to which they are entitled, but which are not always satisfactory.

Strange as it may appear one of the worst enemies he has to contend with, is the retail merchant, for whose benefit he spends good money in advertising.

These manufacturers complain that a certain class of merchants who act as their agents in different localities, do not hesitate to substitute other goods for theirs, using the argument that they are just as good or better. This is a species of dishonesty that no self-respecting man would countenance, and the Gazette does not believe that any Janesville merchant is guilty of the charge.

The customer who calls for an advertised article is entitled to it, just as much as he would be entitled to sugar if he called for sugar, and the merchant who substitutes something else because it pays a better price, or for any other reason, not only defrauds the customer, but he proves himself a traitor to the man whose interests he pretends to represent as a trusted agent.

The practice is nefarious and public sentiment should demand that it be discontinued.

Chicago school children are obliged to carry a water bottle, while Milwaukee children go to school with an armful of wood. Between the deadly microbe and the wicked coal baron, life is becoming something of a burden. This will be a good winter to go south.

The Baptist church is to be congratulated on a successful year. The society evidences substantial growth and its financial condition speaks well for loyalty and intelligent support.

Archib Crawford has been engaged as precursor at Court St. M. E. church. He will be assisted by Mrs. Fannie Clark, and a chorus choir may be organized later in the season.

Charles I. Yerkes is again to the front in London, and work on the underground trolley system will be resumed and pushed to rapid completion.

Secretary Shaw is a good financier, and his plan for helping the banks, while the crops are in transit, will meet with general approval.

Michigan has been practicing in an

HUMANE SOCIETY'S ANNUAL MEETING

Will Be Held at the Home of Mrs. John Peters Next Monday Evening.

The annual meeting of the Janesville branch of the Wisconsin Humane Society will be held on Monday evening, September 29th, at half past seven, at the home of the secretary, Mrs. John Peters, No. 101 Fourth avenue. At present there is a good balance in the treasury, and more interest is being taken in the work than ever before and there should be a good attendance at the meeting, as the officers for the coming year will be elected.

The present officers are as follows: W. G. Palmer, president; W. T. Vankirk, J. M. Whitehead, Mrs. Elizabeth Butler, vice presidents; Mrs. John Peters, secretary; E. B. Helmstreet, treasurer; S. B. Kenyon, agent.

Society Directors

For each ward the directors are: Dr. E. E. Loomis, Mrs. Frank Fife, J. T. Wright, E. T. Fish, Miss M. Chittenden, first ward; C. C. MacLean, Mrs. William Smith, Rev. W. A. Goebel, Miss Mary Hadden, Mrs. J. Peters, for the second ward; In the third ward the directors are H. W. Frick, W. H. Greenman, Mrs. E. F. Woods, Mrs. S. B. Smith, and Mrs. L. L. Smith. Dr. J. W. St. John, Charles Schwartz, Mrs. F. A. Capelle, and Dr. Louise Crow, are the directors for the fourth ward and in the fifth ward the directors are Dean McGinnity, W. H. Jones, Herman Lemke, Paul Rudolph, Mrs. G. H. Rumrill.

The attorneys for the society are M. G. Jeffris, Charles E. Pierce, William Smith and J. J. Cunningham.

HENRY COCHEMS SPEAKER CHOSEN

Will Be the Republican Orator at the Race Meet To Be Held on October 1.

As speaker for the Republican day of the Guard of Honor races, October 1, the committee have secured a man whom they regard as well-fitted to present the cause of the party, Henry Cochems, a young lawyer of Milwaukee.

Mr. Cochems will take a special topic for discussion in his address, the relation of Mayor Rose to the alleged hoodie transactions in connection with the Milwaukee franchise grants. As an old football player, a graduate of the University of Wisconsin and of Harvard, and still a young man, it is expected that his speech will especially appeal to the younger voters; while his sound logic, as is displayed in "Truths About Money," will assure him hearty support of the older men.

Democratic Speaker

The Democratic speaker on the day set aside for that party will be the Honorable Nell Brown of Wausau, who was suggested by Chairman A. F. Warden of the Democratic state central committee, as a delightful speaker. On the Democratic day, rallies will be held both morning and afternoon. Plans for the Republican rallies have not yet been completed.

EMOTIONAL PLAY ABLY PRESENTED

"A Modern Magdalen" Is Given at the Myers Grand by an Excellent Company.

Impossible, as a drama, "A Modern Magdalen" may be. Undoubtedly some of the situations are strained and possibly a normal. But the average observer at the Myers Grand last night was not in a mood to enter into a psychological analysis of the plot and purpose of the play. The one fact of importance was that the company was made up of actors of unusual ability, who were presenting, or possibly actually living, an unusual, perhaps disolute, perhaps noble, woman and her associates, involved in all the conflicting motives of a "problem" plot.

After the first scene, in which the action was retarded by an unnecessary amount of superfluous if not irrelevant incident, the strain of the drama was intense. The acting of Miss Roselle Knott in the leading emotional part, that of Katinka, was worthy of generous commendation, as was that of every member of the cast. The comedy touch was admirably given by W. J. Ferguson as Hiram Jenkins, and Victor de Silke cleverly portrayed John Strong, the ranting, hypocritical reformer.

Only a meager number of Janesville people thought it profitable to attend the performance last night, which with perhaps one exception, merited a liberal patronage more thoroughly than any other attraction that has been billed here this season. Necessarily many inferior companies are booked in the course of a season, but it can hardly be expected that a greater proportion of the higher class dramatic organizations will be brought here, when a capable company, starring in a play that has attracted national attention, draws a poorer house than the ordinary third-rate melodrama.

BOYS ASSAULT JOHN KENSIT

Noted Anti-Ritualist Is Struck by Chisel Thrown by Lad.

London, Sept. 27.—John Kensit, the leader of the anti-ritualist agitation in England, was seriously injured after a mass meeting at Birkenhead, opposite Liverpool, at which he was one of the principal speakers. He lay on the ground for some time, and was being escorted to a car by a number of policemen, one of a crowd of hooligans threw a chisel at him, hitting him in the left eye and inflicting a dangerous wound. WEDDING BELLS RANG THIS NOON

MISS RUTH CULVER BECOMES
MRS. FRANK SANNER.

WEDDING A SOCIETY EVENT

Marriage Takes Place at the Home
of Mr. and Mrs. William G.
Wheeler.

At the home of United States District Attorney William G. Wheeler and wife, 108 East street south, there was celebrated today at high noon the impressive ceremony which united in the sacred bonds of matrimony Miss Ruth Sigourney Culver, of this city, cousin of the host and hostess, and Frank Irving Sanner, of El Paso, Tex. The beautiful ceremony was witnessed by a company of about fifty relatives and intimate friends of the contracting parties.

No prettier wedding was ever held in the city, simplicity combining with rare taste and elegance of detail in making all the appointments perfect. The floral decorations were especially lovely, the flowers and foliage characteristic of autumn being used in profusion.

In White and Green.
In the parlor where the wedding ceremony was performed, the decorations were all in white and green, the room being a perfect bower of dainty beauty. The corner in which the bride party stood was most artistically arranged. Sprays of evergreen, great white chrysanthemums and asters completely concealed the walls from view making an effective background. A beautiful wedding bell of white asters was suspended from the ceiling above and great ropes of flowers and foliage were looped from the bell to the corners of the windows.

An Autumn Parlor.
The other parlor was equally beautiful, though more brilliant in coloring. An abundance of sumac and woodbine trailers with their gorgeous foliage, made graceful decorations on the walls and chandeliers. The flowers used to carry out this pretty decorative scheme were colored asters whose brilliant hues harmonized with the autumnal foliage.

Dining Room in Roses.
Roses were used in the two dining rooms. The dining room, in which the bride and groom and their attendants were served, was especially pretty, the color scheme being pink. Ropes of smilax were suspended from the chandelier to the corners of the table in the center of which stood a bowl of great American Beauty roses. The other dining room was in red, Jack roses beautifully lining the long table at which the immediate relatives were seated. Sweet peas and asters were used on the small tables at which the other guests were served.

The Bridal Party.
Promptly at twelve o'clock the familiar strains of the wedding march from "Lohengrin" floated through the rooms and to its music the bridal party entered the parlor. Miss Mabel Jackman, the maid of honor was followed by Miss Helen Nash, the bridesmaid, and following them came the bride escorted by William G. Wheeler.

The groom, accompanied by his attendant, Charles Dunn, and the officiating clergyman, Rev. Robert C. Denison, pastor of the Congregational church, entered from an opposite door and met the bride's party beneath the wedding bell where the nuptial vows were exchanged.

Beautiful Music.
As the ceremony began the strains of the wedding march were blended into the exquisite serenade, "Evening Star," which Miss Bess Wilcox, who presided at the piano, played softly and beautifully until the closing benediction. The ceremony was especially beautiful and impressive and the bride was given away by Mr. Wheeler.

Bridal Costumes.
The bride, who is just out of mourning for her deceased mother, was becomingly attired in a simple and elegant gown of white India lawn with trimmings of rare old lace which was a part of her mother's wedding trousseau. She carried bride's roses.

Miss Jackman, the maid of honor, was gowned in pink silk muslin and carried pale pink asters and Miss Nash, wore white dotted Swiss muslin, carrying deep pink asters.

Sumptuous Repast.
After congratulations had been extended, an elaborate four course luncheon was served. The service of the delicious viands was uniquely pretty and was cared for efficiently by Mesdames C. S. Putnam, W. H. Greenman, F. H. Jackman, D. K. Jeffris and A. J. Harris.

Bride is Popular.
The bride, who has grown to womanhood in this city, has been an acknowledged leader and a favorite in the younger society circles. By her pleasing personality she has surrounded herself with friends whose sincere affection she holds and who regret her permanent departure from the city.

Capable Business Man.
The groom is a son of Adam Sanner and is also popular in Janesville social circles, having made his home here until about a year ago when he removed to El Paso, Tex. He is connected with the firm of Tanner & Pennybaker, wholesale hardware merchants, and has so established himself in the esteem and confidence of his employers that he is to become a member of the firm on the first of next January.

Left For Texas.
Mr. and Mrs. Sanner left this afternoon on the 4:05 train for Chicago where they will spend a few days before proceeding to El Paso. For the present they will not go to house keeping, preferring to board. They will take with them to their Texas home many costly gifts from their Janesville friends which will serve as delightful reminders of their wedding

day and of the affection of the givers. They also have the best wishes of a large circle of acquaintances for a happy and prosperous future in their sunny southern home.

TO JUSTICE COURT

G. W. Morgan Does Not Meet with Immediate Success in His Case.

Against Gage.

G. W. Morgan has met with repeated setbacks in his attempt to secure \$196 which he alleges that James P. Gage owes him for labor. The complaint was first filed in a Milton justice court and was dismissed through failure of the plaintiff to appear at the date set for a hearing. It was then brought to C. W. Reeder's court in this city, and was today transferred to Jesse Earle's court on a change of venue, the allegation being made that an impartial verdict would not be rendered by the former justice.

Settled Out of Court.

The case of Whitehead & Matheson vs. Thomas E. Bickel, which was called this morning in this same court, was announced as settled out of the court. In the case of I. J. Fletcher vs. W. B. Quigley, in which C. R. Nixon was garnisheed, the latter was ordered to pay the plaintiff the amount of the complaint, twelve dollars.

LIFE IN VENICE NOT ALL IDEAL

DIRTY, CRUMBLING WALLS ARE
SOURCE OF DISAPPOINTMENT.

REV. DENISON'S IMPRESSIONS

He Tells the Art League of the Italian City, Its Beauties and Its Art.

Members of the Janesville Art League enjoyed an intellectual treat yesterday afternoon when Rev. Robert C. Denison gave them an interesting though informal talk on his personal impressions and recollections of Venice. This lecture, which was postponed from last spring, closed the Art League's work on Venetian art and history.

Rev. Denison's talk was given in the parlors of the Congregational church and was illustrated with fine stereoscopic views of the city and of Venetian life. St. Mark's square, Bridge of the Rialto, palace of the Doges with several interior views, Golden Palace, St. Mark's cathedral and the Grand canal.

Rev. Denison considered Venice a revelation of the possibility of achievement under disadvantages and of what a glorious civilization and art can come out of necessity. The early Venetians were obliged to enter upon their half sea, half land life; it was not a matter of choice. They wrestled from the sea not only a livelihood but a wonderful art.

Some Disappointments.

Although the first view of Venice is like a glimpse into fairyland, but nearer acquaintance brings disappointments. In daylight many of the marble walls are stained, discolored and falling into ruins. There is also much dirt and filth in the city. To be ideal Venice should be seen in the glorious colorings of sunset or the pale bluish gleam of moonlight.

Impressive Silence.

The silence of the city, where the soft lapping of the water and the musical cry of the gondoliers takes the place of the usual rush and roar of city life, makes the strongest impression on the traveler, especially Americans. The square of St. Mark's, where great numbers of doves flock because they are held sacred by the Venetians, is the center of the city's life as the palace of Doges is the center of its political life.

Beauty of Color.

Rev. Denison gave some pleasing descriptions of the pictures shown and emphasized the fact that the beauty of Venetian architecture is in its coloring rather than in its design and the beauty of the art lies also in the rich and harmonious blending of colors.

Work is Progressing: The cells in the new lock up will be about ready for occupancy Monday. The plumbers will be about through with their work today and then all that will be left to do will be to put the cement covering and flanges on the lower edge of the cages.

Thieves Are On Deck:

A sneak thief entered the home of A. R. Seileck, Thursday morning, and made way with an overcoat and underwear. A small boy noticed the man and told Mrs. Seileck, who took after him. The thief finally dropped the coat but succeeded in making good his escape.

Light Fixtures Not Here: The electric light fixtures for the new city hall have not yet showed up and it is not probable that they will get here in time for council meeting Monday night. The temporary fixtures now in place in the hall will be kept in use until the new ones are installed.

Janesville Horse Second: John L. Fisher started two horses in the races at Madison yesterday. The track was very muddy but he succeeded in getting second with Lady B in the 2:29 class and Prince Howe in the three-minute class. He had Aunt Laura in the 2:15 pace today but the race will probably be declared off on account of the rain.

Drunk And Disorderly: Otis Walkley was arrested by Officer Bencke on Thursday evening on Milton avenue for being drunk and disorderly and alarming the people living along the street by his actions. He was brought into the Municipal court late yesterday afternoon and was given five days in jail and a fine of \$5.20 or twelve additional days by Judge Field.

Present The Banner. The committee of the Twilight club visited the Jackson school yesterday afternoon and presented the banner awarded to it for its standing in the yearly contest. Miss Fenton accepted the banner in behalf of the school in a neat speech. George Viney, the janitor was also presented with the \$10 prize awarded him. Janitor Toie, of the Jefferson school, was also presented with the \$5 awarded him.

Senior Reception Tonight: The members of the Senior class of the high school will give a reception this evening at the school building to the members of the faculty and freshmen class. The reception will be held in the gymnasium, where light refreshments will be served.

Excavating Started: Excavating for the curbing on North Franklin street. If the weather permits a large force will be set at work Monday.

PEAT BEDS ARE BEING WORKED

SUBSTITUTE FOR ANTHRACITE
BEING MADE IN WHITEWATER.

SELLING FOR \$4.50 PER TON

It is Made from Bogs and Pressed Into Shape by Expensive Machinery.

Just a short distance across the Rock county line in the northwestern portion of Walworth county, a substitute for anthracite coal is being turned out at the rate of twenty tons a day. A stock company has been organized at Whitewater which is utilizing the rich peat beds which are found in the vicinity. None of the coal will be shipped out of the city until the needs of Whitewater have been supplied.

The peat bricks which are produced from these beds are about the size of an egg, but perfectly cylindrical, being so hard that the hands are not soiled in handling it. In appearance, save for the suggestion of artificiality from its perfect shape, it would be difficult to distinguish it from coal.

Made By Machinery.

In the manufacture of this coal a machine is used which presses the peat with great force into cylinders, converting the nature of the substance. The apparatus is the invention of Lieut. J. O. Green of Whitewater, and costs \$5,000 while the output sells at \$4.50 a ton. The plant began operations on a small scale last spring, but its capacity has been materially increased since the demand arose for a substitute for anthracite.

It is believed that there are also large beds in Winnebago county, Illinois. When a ditch was being dug for a Rockford factory, a large bed of it was met with, and it is rumored that Rockford men will take up the manufacture of peat in that locality. One gentleman in particular was interested in the first movements toward the development of the Walworth county fields, and was only prevented from investing there by ill health. He may now turn his attention to Winnebago county.

In Illinois.

Doone county also has a quantity of peat near Garden Prairie. Several times the bog was ignited from grass fires and has burned several days, seemingly going deep into the earth. Now that more interest has been aroused along that line it is probable that other sources of peat bog fuel will be found. Peat is explained as the dried roots of grasses which for many generations have formed a tangled mass of fiber which when dried is changed into an acceptable fuel where a quick heat is desired.

TRADE ACTIVITY FAILS TO ABATE

CONFIDENCE IS THE FEATURE

Failure of the Banks to Respond to the Great Demand for Loans Has Worker Hardship to None but the Speculative Element.

New York, Sept. 27.—"Notwithstanding the disarranged money market, almost a fuel famine, and some damage to crops, industrial and commercial activity continues unabated, and the magnitude of plans for the future indicates that confidence has not been shaken. Scarcity of funds has thus far caused no hardship except to speculators, and the stringency will remedy itself by contracting loans on stock exchange collateral, together with such aid as may be offered by the treasury, which is partly responsible through absorption of the funds.

Crop Injury.
"Injury to crops by frost has no more than offset the increased acreage, while high prices fully compensate producers. It is not a time for pessimism, although securities have declined sharply. Railway earnings for September thus far exceed last year's by 6.8 per cent, and those of 1900 by 16.5 per cent." R. G. Dun & Co.'s weekly review of trade gives the foregoing summary of the industrial situation. Continuing, it says:

Iron and Steel Outlook.
"Pressure in the iron and steel industry has been somewhat alleviated by larger receipts of coke and liberal imports of pig iron, yet the outlook is by no means devoid of unfavorable features. Owing to the numerous influences now in evidence there is less disposition to place large contracts for distant delivery of pig iron and sales are chiefly of small lots. Foreign iron is freely received, and other consignments are under consideration. More steel rail orders have been placed abroad. Needs for structural shapes are increasing, much work being held back by slow shipments, and orders are reported for delivery nearly two years hence.

Footwear Higher.
"A further slight advance in footwear quotations indicates that the healthy demand has made it possible for manufacturers to secure compensation for the recent sharp rise in materials. Country hides show the principal declines of the week, but even foreign dry hides are easier.

"Although cotton goods are firmly held, the market is quiet, as buyers are content to take only such quantities as are needed for immediate distribution. It is too early for supplementary orders in men's woolsens and worsteds, yet there is some extension of original purchases, and the tone of all staple lines is firm. The decline in meats has received a check and sugar is firmly held, with refiners behind in delivery.

"Failures for the week numbered 207 in the United States, against 227 last year, and 32 in Canada, against 34 a year ago."

PRESIDENT IS DOING WELL

Contents of the Wound Show No Dangerous Matter.

Washington, Sept. 27.—President Roosevelt is making satisfactory progress toward recovery from his surgical operation. The inflammation is rapidly subsiding, and reports of the microscopic examination of the contents of the wound, made by physicians in Indianapolis, show no trace of dangerous matter. The five doctors who performed the operation agree that there is no danger of blood poisoning.

The enforced quiet is very irksome to the President, but he is making the best of the situation, putting in his time reading. Dreary, rainy weather has in no wise affected the President's spirits, and he is as cheerful as possible in his enforced confinement.

BURGLARS BIND A POLICEMAN

Safe Blowers Have Pleasant Time With Guardians of the Peace.

South Sharon, Pa., Sept. 27.—A gang of burglars blew the safe of the Beechwood Improvement Company and got \$400 in cash. After robbing the safe the men, four or five in number, were seen by Policeman Newton Stamp, whom they overpowered, bound and gagged. George Haynes, another policeman, was knocked down and tied to a post, and Policeman Saylor kept up a running fight with the men for some distance, but they escaped.

Banker Kills Himself.

Atchison, Kas., Sept. 27.—Norman Barratt, president of the defunct Atchison National bank, committed suicide by cutting his throat with a razor. Worry over the failure of his bank caused the deed.

London Editor Is Dead.

DECLARE RELIEF FUND VOID

Railway Has No Authority to Conduct Insurance in Ohio.

Ducyrus, O., Sept. 27.—Judges Day, Norris and Mooney of the circuit court have rendered a decision in which they have held that the Pennsylvania Railway Company could not legally conduct its employee voluntary relief department, as it was an insurance business, and that under the statutes the company had no authority to conduct life, accident and benefit insurance. The finding affects 25,000 Pennsylvania employees in the state and at least \$2,000,000 in the department fund. The Pennsylvania employees have been making a hard fight against the voluntary department.

DEEDS ARE SET ASIDE BY COURT

Lands Devised to Clara Belle Strain Taken From Eureka College.

Laporte, Ind., Sept. 27.—Judge Rabb of Warren county, this state, has decided the case of Clara Belle Strain against Eureka College of Eureka, Ill., the First Church of Christ of Danville, Ill., and Lewis Hoff. The suit was to set aside deeds to \$100,000 worth of real estate and to quiet plaintiff's title, acquired by virtue of the will of Deborah Bandy, who subsequent to the execution of the will executed deeds to the college conveying lands that were devised to plaintiff. The verdict was for the plaintiff.

FUNSTON FAVORS THE CANTREEN

Asserts Recent Legislation Has Lowered Recent Discipline of the Army.

Washington, Sept. 27.—Brigadier General Funston, in his annual report of the department of the Colorado, declares that the recent anti-canteen legislation of Congress has lowered the discipline of the army, ruined scores of good soldiers and enriched saloon-keepers, gamblers and dissolute women. His report announces a deplorable increase in offenses, particularly desertion, attributed to the abolition of the canteen.

MORGAN EASES MONEY MARKET

UNITED STATES STEEL ACTS

Corporation Mails Checks for Quarterly Dividend on Common Stock Prior to Maturity, Thus Releasing Over \$5,000,000 to the Holders.

New York, Sept. 27.—J. P. Morgan & Co. notified the shareholders of the various companies and corporations for which they act as fiscal agents that they would anticipate October interest and coupon payments next Monday, two days in advance of the required time. These payments, it is estimated, will approximate \$14,000,000. The action is taken to relieve existing financial conditions.

The United States Steel Corporation also announced that it would mail checks for the quarterly dividend on its common stock due Sept. 30 and that the checks would be payable Sept. 29. The sum of the quarterly dividend is \$5,033,025, and that sum will be released to the money market.

Offers to Buy 1904 Bonds.

The following circular was received from the secretary of the treasury: "By virtue of the authority obtained in section 3694 of the revised statutes notice is hereby given that this department will purchase any of the United States 5 per cent bonds of the loan of 1904, if presented for that purpose on or before Oct. 15 next, and will pay for them at the rate of 105 flat. Bonds may be presented at the department division of loans and currency or at the office of the assistant treasurer of the United States at New York.

"L. M. SHAW, Secretary."

Believes Price Is Fair.
Secretary Shaw believes that 105, the price he offers to pay for government 5's of 1904, is reasonable and just and that although the current quotations are slightly in excess of that figure he said that he regarded such excess to be the result of inflation. At the price he offers a private investor would realize about 1.75 per cent for the time the bonds have yet to run. The amount of 5's of 1904 now outstanding is \$19,410,350.

DEFEAT FOR HOMESTEADERS.

Land in Michigan Held to Belong to Lord Brassey.

Marquette, Mich., Sept. 27.—Judge Wandy of the Federal court has decided in favor of the Michigan Land and Iron company. Lord Brassey's corporation, in its fight with homesteaders over lands in the old Marquette, Houghton and Ontonagon Railroad grant, purchased by it in 1861. The title to thousands of acres of choice upper peninsula lands is directly and indirectly involved. It is held that the title of the company is affirmed by acts of congress and that the tracts are not subject to homestead entry. This brings to an end a costly litigation that has been going on for many years.

Are walked by the billiard player, as he moves around the table. That is the only exercise many a city man gets. It is this lack of exercise in the shut-in-life of the city, combined with irregular eating and indigestible dishes which tend to make the city man the victim of "stomach trouble."

When there is undue fullness after eating, with belching, sour risings and other distressing symptoms, a prompt use of Dr. Pierce's Golden Medical Discovery will effect a speedy cure. In the most extreme cases of disease of the stomach and other organs of digestion and nutrition, the persistent use of the "Discovery" will result in a complete cure in ninety-eight cases out of every hundred.

"The praise I would like to give your 'Golden Medical Discovery' I cannot utter in words or describe with pen," writes James H. Ambrose, Esq., of 1205 1/2 Fifth Street, Huntington, Pa. "I was taken down with what our physicians said was indigestion. I doctored with the best around here and found no relief. I wrote to you and you sent me a question blank to fill out and I did so and you then advised me to use Dr. Pierce's Golden Medical Discovery. I took three bottles and I felt so good that I stopped—being, as I think, cured. I have no symptoms of gastric trouble or indigestion now."

MAP OUT INTERURBAN SYSTEM

Capitalists Meet in Frankfort, Ind., to Organize Company.

Frankfort, Ind., Sept. 27.—At a meeting of capitalists in this city steps were taken to organize a company to build a system of interurban lines, with this city as the center. It is proposed to build a line from Kokomo to Lafayette and from this city to Logansport, with an ultimate outlet into Chicago. The capitalists present at the meeting were: R. S. Vivian and W. D. Hall, of Chicago; William George, Charles Karel and V. A. Watkins, of Aurora, Ill.; O. V. Dally of Kokomo and D. A. Coulter of this city. The company will be incorporated at once.

WILL INSPECT THE MONUMENTS

Iowa Vicksburg Park Board Will Rendezvous in Chicago.

Dubuque, Ia., Sept. 27.—Capt. J. F. Merry, chairman of the Iowa Vicksburg park commission, has called a meeting of members at Chicago for Oct. 3. From Chicago the commission will go to Washington and Gettysburg to view soldiers' monuments. The object is to gather information that will enable the commission better to decide on a style of monument to be used in the Vicksburg National park for marking the positions of Iowa troops in the siege of Vicksburg. The Iowa legislature at its last session appropriated \$150,000 for this purpose.
